

HUNTINGTON FUNDS

Monthly Performance

4/30/2008

Performance data quoted represents past performance which is no guarantee of future results. Investment return and principal value will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.

Yields for money market funds will vary. Yield quotations more closely reflect the current earnings of the fund than the total return quotation.

Mutual fund performance changes over time and current performance may be lower or higher than what is stated. For current to the most recent month end performance, visit www.huntingtonfunds.com or call 1-800-322-4600.

An investment in money market funds is neither insured nor guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although money market funds seek to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in these funds.

For more complete information about the Huntington Funds, call 1-800-322-4600 or visit www.huntingtonfunds.com for prospectuses. You should consider the fund's investment objectives, risks, charges, and expenses carefully before you invest. Information about these and other important subjects is in the fund's prospectus, which you should read carefully before investing.

Total return represents the value of an investment after reinvesting all income and capital gains. Total returns for less than one year are cumulative.

1 The 7-day net yield is based on the average net income per share for the 7 days ended on the day of the calculation and the offering price on that date.

2 Total return since inception is quoted for funds with less than 10 years of performance history. Total return for periods of less than one year is cumulative. Five year, ten year, and since inception total returns are average annual total returns.

3 International investing involves special risks including currency risk, increased volatility of foreign securities, political risks, and differences in auditing and other financial standards.

4 Funds whose investments are concentrated in a specific industry, sector or geographic area may be subject to a higher degree of market risk than funds whose investments are diversified.

5 Small company stocks may be less liquid and subject to greater price volatility than large capitalization stocks.

6 Income from tax-free funds may be subject to the alternative minimum tax and state and local taxes.

Performance numbers are pre-tax. Regulations do not require us to provide after tax returns. For after tax returns, call 1-800-253-0412.

Bond prices are sensitive to changes in interest rates and a rise in interest rates can cause a decline in their prices.

Edgewood Services, Inc. is the distributor of the funds, and is not affiliated with The Huntington National Bank. Huntington Funds are available through Huntington Investment Company, member NASD/SIPC, a subsidiary of Huntington National Bank. Huntington Asset Advisors, Inc. is the Investment Advisor of Huntington Funds.
